

**UNITED STATES – CONTINUED EXISTENCE AND APPLICATION
OF ZEROING METHODOLOGY**

Request for Further Consultations by the European Communities

Addendum

The following communication, dated 9 October 2006, from the delegation of the European Communities to the delegation of the United States and to the Chairman of the Dispute Settlement Body, is circulated in accordance with Article 4.4 of the DSU.

On 2 October 2006, the European Communities requested consultations with the United States of America (the "United States") under Article 4 of the Understanding on Rules and Procedures Governing the Settlement of Disputes (the "DSU"); Article XXII:1 of the General Agreement on Tariffs and Trade 1994 (the "GATT 1994"); and Articles 17.2 and 17.3 of the Agreement on implementation of Article VI of the General Agreement on Tariffs and Trade 1994 (the "*AD Agreement*") with regard to the practice and methodologies for calculating dumping margins involving the use of zeroing, and the application of zeroing in certain specified anti-dumping measures (WT/DS350/1,G/L/786,G/ADP/D70/1).

The European Communities has identified additional administrative reviews in which the US DOC applied the "zeroing" methodology in calculating the margin of dumping, and hereby requests that those cases are added to the list of cases attached to the above mentioned request for consultations. The cases concerned are listed in the Annex attached hereto. For the sake of convenience, the cases follow the numbering of the Annex of the original request for consultations and therefore starts at number 39.
