Status Report Regarding Implementation of the
DSB Recommendations and Rulings in the Dispute
*United States – Anti-Dumping Measures on
Certain Hot-Rolled Steel Products from Japan*
(WT/DS184)

The United States submits this report in accordance with Article 21.6 of the *Understanding on Rules and Procedures Governing the Settlement of Disputes*.

On 23 August 2001, the Dispute Settlement Body ("DSB") adopted its recommendations and rulings in *United States – Anti-Dumping Measures on Certain Hot-Rolled Steel Products from Japan* (WT/DS184). At the following DSB meeting on 10 September 2001, the United States informed the DSB of its intention to implement the recommendations and rulings of the DSB in connection with this matter.

On 22 November 2002, the U.S. Department of Commerce issued a new final determination in the hot-rolled steel antidumping duty investigation that implements the recommendations and rulings of the DSB with respect to the calculation of antidumping margins in that investigation. Details of this determination are provided in WT/DS184/15/Add.3.

Further, on 19 May 2005, legislation was introduced in the US House of Representatives (H.R. 2473) that would implement the DSB's recommendations and rulings with respect to the US antidumping duty statute. The US Administration will continue to work with Congress to enact this legislation.
