

**UNITED STATES – DOMESTIC SUPPORT AND EXPORT CREDIT GUARANTEES
FOR AGRICULTURAL PRODUCTS**

Request for the Establishment of a Panel by Brazil

The following communication, dated 8 November 2007, from the delegation of Brazil to the Chairman of the Dispute Settlement Body, is circulated pursuant to Article 6.2 of the DSU.

1. On 22 August 2007, Brazil and the United States held consultations with respect to whether the domestic support the United States provided in favour of its agricultural producers exceeded the commitment levels specified in Section I of Part IV of its Schedule, contrary to Article 3.2 of the *Agreement on Agriculture*. While the discussions were useful and clarified a number of issues, they did not resolve Brazil's serious concerns regarding the Current Total Aggregate Measurement of Support provided by the United States. Accordingly, my authorities have now instructed me to request the establishment of a panel.

2. Pursuant to Articles 4, 6, and 7.1 of the *Understanding on Rules and Procedures Governing the Settlement of Disputes* ("DSU"), Article XXIII of the *General Agreement on Tariffs and Trade 1994* ("GATT 1994"), and Article 19 of the *Agreement on Agriculture*, Brazil requests that the Dispute Settlement Body ("DSB") establish a panel with standard terms of reference to consider the following matter:

That the United States' Current Total Aggregate Measurement of Support has exceeded its commitment levels in each of the years¹ 1999, 2000, 2001, 2002, 2004 and 2005, contrary to Article 3.2 of the *Agreement on Agriculture*.

3. Pursuant to Article 3.2 of the *Agreement on Agriculture*, the United States committed to limit its Total Aggregate Measurement of Support to the annual levels specified in section I of Part IV of Schedule XX of the United States: for the year 1999, USD 19,899.264 million and for each subsequent year, USD 19,103.294 million. Despite this, the United States' Current Total Aggregate Measurement of Support provided by the measures at issue, when properly calculated in accordance with the provisions of the *Agreement on Agriculture*, has exceeded its commitment levels in each of the years 1999, 2000, 2001, 2002, 2004 and 2005, in violation of Article 3.2 of this agreement. These violations nullify or impair the benefits accruing to Brazil under this agreement.

4. The domestic support measures² at issue comprise those listed in the Annex, which forms an integral part of this request. These measures include (a) domestic support measures identified by the

¹ In this request, "year" has the meaning assigned to it in Article 1(i) of the *Agreement on Agriculture*.

² In this request, the word "measure" refers to the support programs as well as support provided pursuant to those programs.

United States, whether correctly categorized or not, in G/AG/N/USA/43, G/AG/N/USA/51, G/AG/N/USA/60, G/AG/N/USA/5, G/AG/N/USA/25, G/AG/N/USA/28, G/AG/N/USA/37, G/AG/N/USA/58, and G/AG/N/USA/59 (the "Notifications");³ and (b) domestic support measures not identified in the Notifications that are not properly exempted from the United States' reduction commitments. The measures further include any other legislation, regulations and other instruments not listed in the Annex, by which any of the support under the listed measures was provided.

5. Brazil asks that this request for the establishment of a panel be placed on the agenda of the DSB meeting scheduled for 19 November 2007.

³ The reference to domestic support measures identified in the Notifications is without prejudice to whether the amounts or categorization of such measures are accurate.

ANNEX

List of United States' Domestic Support Measures

This Annex identifies measures by the name or description used by the United States in its Notifications. Where a legal authority was indicated in the Notifications, Brazil has relied upon the Notifications for identifying the legal authority at the relevant time. Brazil has supplemented the legal authority identified in the Notifications, where appropriate. The years to which each support measure relates are specified in the Notifications.

This Annex also identifies by name or description measures not notified by the United States and the legal authority for those measures. The years to which each of the non-notified measures relates are specified in this Annex.

Each measure identified in this Annex comprises the support program (i.e., the overall design, structure and/or legal mechanism by which support is determined and/or granted) and the support provided thereunder. Thus, the use of terms such as "measures", "support", "payments" or "program" encompasses both the support program and the support provided.
