**UNITED STATES – ANTI-DUMPING AND COUNTERVAILING MEASURES
ON LARGE RESIDENTIAL WASHERS FROM KOREA**

**STATUS REPORT REGARDING IMPLEMENTATION OF THE
DSB RECOMMENDATIONS AND RULINGS
BY THE UNITED STATES**

Addendum

The following communication, dated 15 April 2019, from the delegation of the United States to the Chairperson of the Dispute Settlement Body, is circulated pursuant to Article 21.6 of the DSU.

The United States submits this report in accordance with Article 21.6 of the *Understanding on Rules and Procedures Governing the Settlement of Disputes* ("DSU").

On 26 September 2016, the Dispute Settlement Body ("DSB") adopted its recommendations in *United States – Anti-Dumping and Countervailing Measures on Large Residential Washers from Korea* (WT/DS464). At the following DSB meeting, on 26 October 2016, the United States informed the DSB of its intention to implement the recommendations of the DSB in connection with this matter. Korea requested that the reasonable period of time for the United States to implement the recommendations of the DSB be determined through arbitration pursuant to Article 21.3(c) of the DSU. The Arbitrator determined the reasonable period of time to be 15 months, expiring on 26 December 2017.

On 29 March 2019, the U.S. International Trade Commission ("USITC") determined in the context of a five-year "sunset" review that revoking the existing antidumping and countervailing duty orders on imports of large residential washers from Korea would not be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. As a result of the USITC's negative determinations, the existing antidumping and countervailing duty orders on imports of large residential washers from Korea will be revoked. Revocation of the antidumping and countervailing duty orders is expected to take place shortly after the publication of the USITC's public report, which is scheduled to be released on 8 May 2019.

By withdrawing the antidumping and countervailing duty measures on imports of large residential washers from Korea, the United States will have completed implementation of the DSB recommendations concerning those measures.

The United States continues to consult with interested parties on options to address the recommendations of the DSB relating to other antidumping measures challenged in this dispute.
